

## Details of 9 sponsored children under AET, France, for whom the fund will be used.

---

### Individual details:

Name: TENZIN KHEDUP  
Gender: MALE  
Date of Birth: 16/09/1994  
Diagnosed: Cerebral Palsy  
Home Town: MAINPAT

### Family Back Ground:

Tenzin Khedup's family consists of 9 family members with 7 children. Tenzin is the only wheel chair bond child suffering from cerebral palsy with scissor gait by birth. His father sustains the family by working in the field and mother being ill health. Moreover, all the children are young and attending schools. The financial condition of his family is sympathetic. Tenzin Khedup is mentally very active with lots of things to talk to anybody that comes across him.

### Individual details:

Name: TENZIN DASEL  
Gender: FEMALE  
Date of Birth: 14/12/1994  
Diagnosed: Drown Syndrome, Mental retardation  
Home Town: MUNDGOD

### Family Back Ground:

Tenzin Dasel is an intelligent but disable girl who belongs to a poor family with six members where the monthly income is merge to meet their day to day expenses. In addition to this disable girl, the family has another child who is patient of tuberculosis that needs medications. So, the financial condition of the family is very poor and unable to afford for the very much needed of medication to their children. Tenzin Dasel had a milestone physical & mental retardation with severe learning difficulties due to Down syndrome that is associated with speech and some problems with behaviour. She can hear well but loves to use sign language with her friends who cannot hear and talk. We are trying our best for this disable intelligent girl to lead an independent life herself.

### Individual details:

Name: TASHI TSERING  
Gender: MALE  
Date of Birth: 03/11/1993  
Diagnosed: Cerebral Palsy  
Home Town: KATHMANDU

### Family Back Ground:

Tashi Tsering belongs to a divorced parent with five children. Four children are school goers and the eldest sister helps to earn for the family. Their mother is an aged lady who is unable to take care of her family. Tashi is a wheel chair bond child with cerebral palsy. He is also speech impaired and he likes all children and communicates through Indian sign language. He also like music and his disability prevent him from dancing; he involves himself in the dancing group by his gestures.

### Individual details:

Name: TSERING TENNZIN  
Gender: MALE  
Date of Birth: 08/03/1995  
Diagnosed: Cerebral Palsy  
Home Town: MUNDGOD

### Family Back Ground:

Tsering Tenzin is a polio victim child. He can't walk or sit properly and is on a wheel chair. He belongs to the remote areas of Ladakh where people failed to get modern provisions. His parents are leading a nomadic life. He is a case of severe quadriplegic cerebral palsy and had knee contractures by birth. Poor child is also having epilepsy. However, medication succeeded to control major part of his frequent fits.

### Individual details:

Name: RINCHIN SANGPO  
Gender: MALE  
Date of Birth: 13/06/1996  
Diagnosed: Hemiparesis & Speech impaired  
Home Town: MUNDGOD

### Family Back Ground:

Rinchen Sangpo is taking care of by his mother as they are divorced. The mother is taking care of three children. She works in the settlement handicraft centre to earn. Rinchen's medical undertaking was bored by the camp association before his admission to this school. When Rinchen's mother was pregnant, she had a sideward falling mishap resulting into labor pain that lasted for a whole week. His birth cry was normal but his right side defects of the limbs were seen at the time of birth. He was also unconscious right after the birth for an hour succeeded by tremor shaking of the body turning into blue. New born Rinchen was hospitalized for 8 days under strict medication. He had a milestone delayed development walking at the age of 2 and half years. He was given Tibetan medicine also. But, little progress was noticed. Rinchen is a case of mild physical difficulty associated with learning difficulties. He has squint eyes and a slight speech problem that is congenital. Besides, he had a creative mind with his skill of creative drawings. He can understand everything that is told to him but face difficulty responding back.

Individual details:

Name: TENZIN CHOEDON  
Gender: FEMALE  
Date of Birth: 23/09/1997  
Diagnosed: Autistic  
Home Town: UPPER TCV SCHOOL

Family Back Ground:

Tenzin Choedon is an orphan child with her admittance in Tibetan Children's Village School at Dharamsala. She was admitted in this school as she is an autistic child with problem of sight, speech and learning. She is also hyperactive with spastic quadriplegia and global development delay. We are trying to provide her with the best reachable medication. She is also in need of good attention as being an orphan she seems to develop feeling of negligence. Although the expense of our school is depending on donation, we have 50 children who are in need of special care.

Individual details:

Name: TSERING DORJEE  
Gender: MALE  
Date of Birth: 17/09/1999  
Diagnosed: Hearing & Speech Impaired  
Home Town: BOMDILA

Family Back Ground:

This boy belongs to a family of four members with one brother. Mother is housewife with father working as truck driver. Tsering Dorjee is a congenital deaf & dumb. Parents tried to consult this child to different doctors although they are financially under stress. Otherwise, he is very intelligent with good grasping power. He is very good at drawing. He is attending a school for hearing impairment nearby our school and our vehicle drops him in the morning and picks him up in the evening. He is getting education through Indian sign language in that school.

Individual details:

Name: TENZIN JAMYANG  
Gender: MALE  
Date of Birth: 10/03/1996  
Diagnosed: Muscular Dystrophy  
Home Town: TIBET

Family Back Ground:

Tenzin Jamyang belongs to Lithang Valley of Tibet and admitted in our school as new arrival from Tibet. He is a semi-orphan child. Unfortunately, he had to undergo waist operation when minor. He is on wheel chair and was transferred to our school from Tibetan Children's Village School, Dharamsala. His father is still in Tibet and can hardly come to meet him. Tenzin Jamyang got behaviour problem and also short tempered yet, he is very frank and loves to talk with everyone. When he gets aggressive, he needs to be taken under control by verbal prompts like praising for his every action.

Individual details:

Name: TENZIN PAKTO  
Gender: MALE  
Date of Birth: 26/01/2001  
Diagnosed: Autistic  
Home Town: LADAKH

Family Back Ground:

He has two sisters with parents earning through farming. He is from one of the remote areas of Ladakh, north India. Unfortunately, he suffered from high fever resulting present autism with learning difficulties. The area from where the boy is remote and there is no dispensary also. Parents being illiterate failed to take first aid. This mishap made Pakto disable. We are trying to provide him with the best medication as his is not a severe disable case.
